Dear Vince,
thanks again for your interest in our Cochrane EBT meeting in DC on May 4th. I just want to clarify that the meeting will be held from 8 AM to 9 AM US EST.

Thank you,
Daniele

Subject: Cochrane Exploratory Meeting: Evidence-based Toxicology - Washington, DC - May 4th, 2016

Dear Colleagues,

Over the past several years, we have been working with the Cochrane Collaboration and colleagues around the world on developing consensus on evidence based approaches for toxicology. We would like to involve you for your extraordinary expertise and we would be delighted if you could take part to the Formal Cochrane Exploratory Meeting we are scheduling during the upcoming GRADE Meeting (2-4th of May 2016) in Washington, DC at the George Washington University, Milken Institute School of Public Health. Here you can find more details on the aim and purposes of Formal Cochrane Exploratory Meetings:

<http://community-archive.cochrane.org/organisational-policy-manual/3442-preparing-and-holding-formal-exploratory-meeting>

The meeting is currently scheduled for Wednesday 4 May 2016 - 8 AM to 9 AM CEST.

Only distinguished experts in Evidence Based Toxicology and Environmental Health are invited. Attached the minutes from our previous meeting held in Vienna during the Cochrane Colloquium 2015.

Unfortunately, there is no support for travel or other costs for attending this meeting as is the practice of the Cochrane Collaboration given its community basis. We hope that you can attend this meeting, because your expertise will be precious for a successful and effective translation of evidence based principles in toxicology. In case you are interested in joining the meeting online, we also offer the possibility of remote attendance via Skype. Please inform us as soon as possible for purposes of our planning.

Thank you and looking forward to seeing you in Washington.

Best Regards,

Ellen K Silbergeld
Daniele Mandrioli
